

Dear Friends,

Family stories. Lake cabin memories. Generosity that spans generations.

This National Family History Month, we're reminded how our past shapes our future and how thoughtful planning helps our values live on.

Ron and Marge Hegge beautifully captured this when they shared, **"It's not about us. It's about others."** Through their donor-advised fund, they honored both family heritage and faith-based generosity.

your life can make a difference

Could your family's story help shape what comes next? Through our partnership with FreeWill, you can create a free will or trust in about 20 minutes, ensuring what matters most is cared for and celebrated. Having a will in place allows you to:

- Pass on the fruits of your labor by deciding which individuals or organizations will receive your assets, from your home to treasured photo albums and family heirlooms
- Designate trusted guardians to care for your most precious branches—your children and pets
- Grow an optional family legacy dedicated to a life of service and God's will and grace.

[Start my will](#)

If you'd like, take a moment to [watch the Hegge family's full video](#) and learn more about their experience of bringing the power of planning to life.

No matter what you choose for your plans, thank you for being a part of our incredible, faithful community.

Wishing you peace as your legacy grows,

P.S. If you have already included a gift to your favorite ministry, please [fill out](#) this form. We'd love to thank you for your generosity
